

solutions overview

dynamic meeting room signs

Printed signs are a thing of the past. Meeting Room Digital Signage is an attractive, state of the art solution to keep your visitors clearly informed of event locations and times, while promoting your property as innovative and forward thinking. Meeting room signs are updated with Four Winds Interactive Content Manager software, which integrates with your event management system for easy, automatic schedule updates. Eliminate wasted time and money spent printing and posting paper schedules outside each of your meeting areas. If you want to add an additional element, implement interactivity on your signs and allow your visitors to view property amenities and local information while on meeting breaks. Impress your visitors and potential conference clients with eye-catching meeting room signage from Four Winds Interactive. Upgrade to digital signage today!
